

Welcome to the Menkes Clinic

Since 1984, Dr. Menkes and his team have offered superb, personalized care that has established The Menkes Clinic as one of the Bay Area's most trusted centers for medical, surgical, and cosmetic dermatology.

The Menkes Clinic has a state-of-the-art AAAHC certified outpatient surgery center. We specialize in treating skin disorders and skin cancer, as well as cosmetic procedures and surgery. We ensure the comfort of our patients by performing all of our surgeries under local anesthesia, which is safer and promotes faster healing. We combine the latest technological advancements in dermatology with our deep commitment to understanding the needs of our patients. You'll feel comfortable spending time with us to design a personalized quality skin care program that fits your needs.

Our staff includes board certified dermatologists, physicians assistants, registered nurses, medical assistants, and aestheticians who provide a team approach in caring for our patients.

Lillian Soohoo
MD, FAAD

Andrew B. Menkes
MD, FAAD, FRCPC

Mary Rozelle
Physician Assistant

“*Mini-Face Lift: Best experience! Thanks to Dr. M and the entire staff. I had zero pain. Two weeks later I looked exactly like myself except 10 years younger. I'm 68! My friend was so impressed, she signed up. I highly recommend Dr. Menkes unconditionally. I'm beautiful and look very natural.*”

– Trudy

“*Everyone took their time. I felt listened to and had my questions/concerns addressed in empathetic detail. Wonderfully nice people. I felt really comfortable and that I would be in safe hands!*”

– Pam

General, Surgical and Pediatric Dermatology

SKIN CANCERS Skin cancer detection, screening, biopsies, and different treatment options depending upon type, location, and depth of the cancer.

MOHS SURGERY A surgical technique used to remove difficult or recurrent skin cancers.

ACNE Topical medications, oral antibiotics, Accutane, and BLU-U® therapy, as well as aesthetic services to work in conjunction with the medical regimen that is best for you.

PSORIASIS Topical prescription medications, XTRAC® laser treatment, methotrexate, narrow band UV-B phototherapy, biologic therapies, and cyclosporine.

ECZEMA/DERMATITIS Non-medicated emollients, prescription-strength ointments and creams, narrow band UV-B phototherapy, biologic therapies, cyclosporine and CellCept®.

PEDIATRIC DERMATOLOGY The diagnosis and treatment of skin conditions in children and adolescents.

Cosmetic Procedures

COMPLIMENTARY CONSULTATION

BOTOX® COSMETIC, DYSPORT®, & XEOMIN® Relaxes wrinkles caused by muscle movement, such as frown and forehead lines, crow's feet around the eyes and smoker's lines around the lips.

JUVÉDERM® XC, RESTYLANE®, PERLANE®, JUVÉDERM VOLUMA™ XC, AND BELOTERO BALANCE® Restores the natural volume of youthful skin by smoothing wrinkles and folds and plumping lips.

SCULPTRA® This natural-looking sculpting filler volumizes to correct the signs of facial fat loss and can last up to four years.

RADIESSE® A dermal filler that stimulates new collagen production that helps to smooth wrinkles and folds and lasts up to one year.

IPL™ (INTENSE PULSE LIGHT) Reduces age spots, brown pigment, and redness/flushing caused by broken capillaries, and restores sun-damaged skin.

FRAXEL® & CLEAR + BRILLIANT Stimulates natural collagen production as well as the production of fresh skin cells in order to improve skin texture, skin tone, and reduce pore size. Safe for dark complexions.

EXCEL V LASER Improves skin tone and texture, removes unsightly leg veins, and reduces the appearance of sun damage, fine lines, and wrinkles.

ULTHERAPY A non-invasive procedure that uses ultrasound technology to tighten, tone and lift skin around the neck, under the chin, and at the brow. No anesthetic required, no downtime, and can be done in an hour.

COOLSCULPTING™ An innovative, non-invasive procedure to reduce stubborn pockets of fat that do not respond to diet and exercise. No surgery, no needles, and no downtime!

LASER HAIR REMOVAL Removes unwanted hair with exciting speed and comfort using the new LightSheer® DUET High Speed System.

SCLEROTHERAPY Treats unwanted varicose and spider veins with injection.

Cosmetic Surgery

COMPLIMENTARY CONSULTATION

ACTIVE FX™ / DEEP FX™ (Fractional CO₂ Laser) Reduces wrinkles, acne scarring, brown spots, and greatly improves skin texture for a glowing complexion.

FACE/NECK LIFTS Lifts neck, sagging jowls, and cheeks with natural-looking results.

EYELID REJUVENATION Reduces under-eye wrinkles and fatty pouches beneath the eyes, and removes excess skin from the upper eyelids.

SMARTLIPO Removes stubborn, unwanted fat with body contouring.

CELLULAZE The first procedure of its kind that works to address the structural problems that cause cellulite, which works by leveling out bumps and stimulates collagen production.

Aesthetic Skincare Services

COMPLIMENTARY CONSULTATION

THERAPEUTIC FACIAL A comprehensive facial treatment that combines acne extractions with glycolic acid peels and/or masks for exfoliation.

CALMING FACIAL A gentle cleansing and hydrating treatment to refresh skin.

SILK PEEL DERMALINFUSION Exfoliates and infuses skin with products to both brighten and restore the skin's luster.

GENTLEMAN'S FACIAL A treatment designed especially for men to improve skin quality that includes the Silk Peel and extractions, if necessary.

BACK AND CHEST TREATMENT A skin-specific peel using glycolic, lactic, or salicylic acid, and extractions. You may add the Silk Peel to this treatment for an additional fee.

HAND REJUVENATION TREATMENT An exfoliating treatment using a glycolic acid peel as well as a warm, hydrating mask.

AESTHETIC SKIN PEELS We offer a wide variety of peels to address your individual care needs.

ACNE EXTRACTIONS A shorter, more focused treatment for blemishes caused by acne.
